

**BACKPACKS
OF LOVE**

±Feeding Hungry Children Every Weekend±

Backpacks of Love provides food for school-age boys and girls in Central Virginia by providing food for their weekends. We currently provide over 800 bags a week.

Last year, Cobb Technologies reached out and expressed an interest to get involved in our mission. Since then, Cobb held a Golf Tournament and donated 100% of the proceeds to Backpacks of Love. Not only that, but they went a step further. Every week at Cobb their employees pack 200 bags for the program. They are transported to our pantry in their service trucks to be disbursed to the needy children in area schools.

It means so much to be partnered with an organization like Cobb that cares about the community and gives back in such an impactful way.

Thank you,

Brenda N. Fulcher, Marketing Director
