To Whom It May Concern,

It is with great pleasure that I recommend Cobb Technologies for consideration of the RVA Chamber Impact Award. I cannot begin to express the impact this company has had on the Elementary Intervention Program over the last year. Our students, staff and families have been blessed with their generosity.

Many of our students are considered at risk and each year we have the privilege of celebrating them and their families with a Back to School Extravaganza. During this event we provide the families with dinner, activities and book bags full of school supplies to start the year off right. As you can imagine, the evening can be costly. This year Cobb Technologies and their staff not only set up a donation drive for the supplies, but also packed 50 book bags full of supplies for us to hand out to families. In addition, their dedicated staff came to our function to help cook and serve food, interact with the families and help run the activities. Anything we needed they jumped right in to make the evening a success.

In addition, they held a clothing, toy and book drive to help us fill our clothes closet. Their efforts gave so many of our students the opportunity to receive clothing that was season appropriate, such as coats for the winter months. Cobb Technologies also put together hygiene bags for us to distribute to our families in need.

These are just a few examples, but the list goes on and on, in regards to the support and generosity Cobb Technologies has shown our staff, students and families. The heart behind what they do is evident in their actions. It is such a nice change to see a company that has a vested interest in making the community a better place. Their consistent help, networking to find donations, etc. has made a tremendous impact for our program. I would be hard pressed to find another company more deserving of the RVA Chamber Impact Award. Thank you for your consideration.

Sincerely,

Crystal L. Blount
